Testimonials

Frank Arnold
Former Judson ISD Head Football Coach, and inductee into the Texas High School Football Hall of Fame

"This Conflict Resolution training was applicable to all our coaches, from Jr High to High School. The role play exercises were outstanding and very impactful. I would highly recommend the training to Districts around the state."

Kevin Ozee
Duncanville ISD & Southlake Carroll

"The RedZone in-service provided excellent new tools for our coaching staff to use in issues relative to parent conflict. The feedback from our staff was all very positive."

Robert Lenhoff
Cibola Schertz ISD

"This training was great for our first-year coaches as well as those with experience. The role play exercise that was done dealing with difficult parents in heated situation, was real in every sense. Highly recommend this training."

What does Conflict Cost the Faculty & Staff

Conflict, if left unresolved, can also lead to attitudinal and behavioral issues among teachers and staff that carry hidden costs such as:

- Absenteeism and eventually
- Decreased Job Satisfaction and Commitment
- Reductions in Productivity
- Turnover

All of which lead to bottom-line costs, increased hiring costs, and disruptive restructuring on top of taking away from the learning environment.

Assessment - Conflict Management Profile (CMP)

This Assessment is taken in 2 Parts.

1

The Assessment first identifies one of three work roles preferred by the individual coach/teacher/or staff member

- Relational
- Tasks
- Process

Through our educational research, RRG and WRG have identified these areas as over-arching functional workplace capacities of administrators.

2

Second, we map these functions against three primary conflict styles...

- Avoider
- Competer
- Problem Solver

...in order to construct individualized report that matches one's preferred job function to their interpersonal communication style.

The resulting profile will assist the district's HR office to better match the employee with a job function to reduce inefficiencies and improve workflow.
